HUDSON'S

COFFEE

The background is a vibrant blue with a pattern of coffee beans and a central image of a coffee cup. The beans are scattered throughout, some appearing to float or be in motion. The coffee cup is positioned in the center, with its rim and handle visible. The overall aesthetic is clean and modern, emphasizing the coffee theme.

## REGAL TRADING INCORPORATED

While the true meaning of quality coffee has come into question recently, Regal Trading continues to maintain high standards and top level products. Regal sets the benchmark in coffee roasting and blending by procuring the highest quality beans available to create their superior blends. Old world craftsmanship produces flavorful blends that have consistent quality, cup after cup. Our roast master can custom blend to produce a product to fit your individual profile. Distinctive one and three pound cans are available with our house label or private labeling can be created for your customer.
